ABOUT ME

As a highly motivated and enthusiastic Front-end Developer with one year of professional experience, I am eager to continue building my career and making a meaningful impact in the industry. Over the past year, I have gained hands-on experience working with ReactJS, Typescript, NodeJS, and NextJS, enhancing my skills through both professional projects and continuous self-directed learning. I am constantly evolving my abilities to stay up to date with the latest advancements in the field. I am searching for an opportunity to work with a team of talented individuals where I can further grow as a developer and contribute positively. I am committed to giving my best effort to ensure the success of any project I work on, and I am dedicated to building a long and successful career in Front-end Development.

 - Radix UI and Shadcn UI
 - **Soft-skills**
 - Solve problems, work in a team, self-taught, learn quickly
 - Communicative, empathetic, resilient, organized
-

WORK EXPERIENCE

Front-end Internship

Oliveira & Biason LTDA

Company's brief description:

 05/02/2024 – 05/12/2024  Arapongas, Brazil Business area: Baby clothing and infant utilities store (Junior Baby)

Project:

- Main goal:
To create an e-commerce platform integrated with an inventory management system to enhance the business operations of Junior Baby store.
- Details and responsibilities:
 - Full-stack development of the e-commerce platform using the best practices and modern technologies.
 - Integrated an inventory management system to keep track of products, customers, and orders efficiently.
 - Collaborated closely with stakeholders to gather requirements and ensure the platform met business needs.
- Outcome:
Successfully launched an e-commerce platform that streamlined inventory management, enhanced customer experience, and increased online sales for Junior Baby.
- Technologies:
NodeJS, ReactJS, NextJS, TailwindCSS, MongoDB, TypeScript

Student

Philadelphia University Center

Company's brief description:

 10/06/2023 – 15/06/2024  Londrina, Brazil Business area: University and education

Project:

- Main goal:
To develop a system aimed at democratizing access to health information, providing users with reliable and easy-to-understand content.
- Details and responsibilities:
 - Participated in the full-stack development of a web application that provides accessible health information to a broad audience.
 - Focused on user-centered design to make health information more accessible and understandable, especially for communities with limited access to healthcare resources.
 - Implemented features that allow users to search for health topics, receive personalized information, and engage with interactive content.
- Outcome:
Launched a platform that significantly improved access to health information for underrepresented communities, receiving positive feedback from users and stakeholders.
- Technologies:
ReactJS, NodeJS, ViteJS, Firebase, TailwindCSS, TypeScript
